

## COVID-19 ACTION PLAN – UPDATED 5/11/20

1. Open –excluded from closure by the Governor’s most recent SIP order that also allows all children to attend regardless of their families essential worker status.
2. Normally scheduled time / days / routine are in effect.
3. Keeping to the same group of children and small ratio (1:6).
4. The same attendance / tuition policy is in effect.
5. **Parents are to text / call me when they arrive for drop-off and pick-up** so I can come to the door (please keep six feet back from the door and from other parents). No sign-in/sign-outs; I will be maintaining the attendance sheets for now.
6. No visitors, parents, or extended family, including emergency contacts and pick-up contacts are allowed inside the facility without prior approval and a face mask.
7. Children will immediately take off their shoes, sanitize / wash their hands, and have a morning health check of symptoms and temperature (this goes for all residents in the house too). I have individual thermometer coverings for everyone.
8. The same vigorous hand washing, cleaning, and disinfecting will be continued. All *communal* items that cannot be disinfected (e.g. play-doh, play sand, water table, etc.) on a daily basis will be put away or modified for individual use.
9. **Absolutely NO illness symptoms (even mild): running nose/congestion, repeated coughing / sneezing, diarrhea (even once), stomach ache/nausea, lethargy, shortness of breath, temperature 99.0F+, etcetera. If anyone in your household becomes ill with such symptoms, please do the right thing and keep your child home to isolate.**
10. If your child becomes ill with a fever, you must have a negative result from a COVID-19 test before returning to school in addition to a mandatory 3-days home.
11. If someone in your house has COVID-19, before returning to school, *your child and each person in the house* must show a negative test result taken 14-days after all have recovered. Proof of recovery date (negative result) and negative tests results are required in the form of the actual test result and an official doctor’s note. **Integrity within our community of families is essential.**
12. *If an enrolled child catches COVID-19, Rosena Preschool will have an immediate decontamination day (open, but no one can attend) so I can conduct interviews, assess the situation, report to the local health department, and have extra cleaning.* Direct exposure does not mean one has automatically “caught” this, but if #10 or #11 happens, I will be taking a second round of temperature checks daily at 12pm for the next 14-days.
13. **No person or place can guarantee a contagion-free environment; your enrollment and attendance is voluntary and is at your own discretion at all times.**
14. This action plan may be updated at any time as needed.
